Index of common and scientific names	

This inventory, No. 181, lists the plant material (Nos. 377555 to 384427) received by the Germplasm Resources Laboratory, Plant Genetics and Germplasm Institute, Agricultural Research Service, during the period from January 1 to December 31, 1973. The inventory is a historical record of plant material introduced for Department and other specialists and is not to be considered as a list of plant material for distribution.

The species names used are those under which the plant material was received. These have been corrected only for spelling, authorities, and obvious synonymy. Questions related to the names published in the Inventory and obvious errors should be directed to the author. If misidentification is apparent, please submit a herbarium specimen with flowers and fruit for reidentification.
